

Writing from Within Level 2 Students Book

A series that prepares students for paragraph and composition writing, while making the process enjoyable. Writing from Within, Level 2 focuses on generating topics, writing cohesive paragraphs, and organizing them into clear, logical compositions. The book contains twelve units, each one centering around a final writing assignment. As students prepare for their assignment, they brainstorm ideas for writing and analyze sample paragraphs and compositions for both language and organization. The units offer a balance of introspective writing assignments with more conventional, task-based ones. Level 2 writing topics include a major life event, personal goals, a research report, and a newspaper article.
