

## Babysitting Perverts

Chris Miller can write! I was hooked from the first word to the last. Most of the content is around his job at an adult bookstore, and allowing himself to be tested for potential pharmaceuticals to be put on the market. Obviously a heavy read, but never is this pretentious or shock value. No attempts at being Bukowski or Sotos. There's some self-loathing going on, but it's all told in a way that everyone can relate to.

What is it really like to work at an adult video store? Imagine a place just around the corner from your house. A small nondescript building with a bright purple and red neon sign in the window that says simply, Open. Men shuffle in and out of it all day, never looking around as they scramble to their cars with plain brown paper bags in their hands. If you have always been curious about what types of people frequent these often seedy porn stores but never wanted to stoop low enough to work at one full time, for years on end, then this is the book for you. Find out who shops there, why there's no need to be nervous, and what exactly goes on in those video booths. You might be shocked, then again the truth may not be what you think.
