

Strategy and Partnership in Cities and Regions: Economic Development and Urban Regeneration in Pittsburgh, Birmingham and Rotterdam

Policy-makers in Pittsburgh, Birmingham and Rotterdam are confronted with rapidly changing social and economic environments. Public- and private-sector organizations in the three cities are increasingly addressing regional issues strategically, and are joining together in partnerships to promote competitiveness and economic growth. This book covers the complexities of modern governance under such circumstances, the diversity and patterning of public-private partnerships and networks, and the changing economic development strategies of city governments and organizations.
