

Boundless Joy: 101 Timeless Reminders Of Our True Nature

Realize greater success in all areas of your life, simply by identifying with your true nature... Boundless Joy. Our true nature is Boundless Joy. We are Divine beings, with infinite potential to be, do and have what we desire in life. As spiritual beings enjoying a human experience, we come from a field of infinite wisdom, power, and love. This is the message of all great spiritual masters. When we see ourselves as infinite spiritual beings, complete, perfect, and whole, all of our daily actions will reflect this state of mind, and we will begin to experience vastly improved results in our business affairs, relationships, finances, and health. Psychologists and personal growth experts agree, when we adopt a positive, powerful, confident self-image, we begin to achieve consistent, lasting success in all area of our lives. The quotations Ive compiled in this short book help us do just that. By reading, contemplating, and internalizing one or two each day, we begin to see ourselves in a whole new light. Perspective is everything in life. Its not more knowledge we need. Nor do we need more complex systems or formulas for success. All the wisdom, power, and love we need to achieve infinite success is already within us. We simply need to identify with these qualities to achieve the success we desire! In order to cultivate joy from within, the following practices can be helpful: -See yourself as a spiritual being, not a body, mind or intellect. Remind yourself daily of this truth, as the minds tendency is to identify with the material world. The body, mind and intellect are things we have and use, not who we are. -Know and believe that joy enters the world through us. Our joy is not dependent on external circumstances. -Find time to meditate each day. Quiet and still the mind and turn your attention inward. -Read and contemplate spiritual literature. We all want more success in life. This is natural. Growth and

expansion are natural processes. There is no better way to get into the flow of infinite growth and expansion than to see yourself as an infinite spiritual being full of boundless joy! I wish each of you all the success, happiness, and joy you deserve in life. Thank you!
