

Hitlers Savage Canary: A History of the Danish Resistance in World War II

After Adolf Hitler made plans to create a model protectorate out of Denmark, Winston Churchill predicted that the nation would become the Fuhrers tame canary. Isolated from the Allies and fueled only by a sense of human decency and national pride, the Danes created an extraordinary resistance movement that proved a relentless thorn in the side of the Nazis. By 1945, they had published twenty-six million issues of illegal newspapers. They set up radio guides for Allied aircraft on the coasts and proved invaluable in penetrating Nazi defenses. Regular boat services ran between Sweden, Denmark, and Britain. German ships could not move out of ports, and troops were stymied again and again by the sabotage of railways and air bases. Most amazing of all was the transportation of some 7,000 Danish Jews to safety in Sweden. They were not trained; they were not soldiers. They were simply ordinary citizens who refused to stand idly by and witness an atrocity. The story of the selfless courage and daring should inspire countless future generations. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.
