

A Handbook on The Eritrean Economy: Problems and Prospects for Development

This is a comprehensive survey of the Eritrean economy from a historical and contemporary perspective. The author looks at various problems and prospects for development in this East African country and offers some suggestions on what can be done to achieve economic growth. Areas covered in the book include agriculture, industry, privatization, domestic strategies for economic development, foreign trade and macro-economic policy, among many others. The author is a professor of economics in Eritrea.
