

## Shopping in Pictures (Pictures to Share)

When someone has dementia, traditional books can become incomprehensible and meaningless. This title from the popular range of Pictures to Share books is designed to be accessible and entertaining for anyone with mid to later stage dementia who may remember gazing in shop windows, nipping on the bus into town or popping down the road for a loaf of bread and need a prompt to help them talk about it. The range of beautiful and powerful pictures and short texts combine to give a real feel of traditional shops and the shopping experience. Designed to take the reader back to days that may still be fresh in their minds. All the images are powerful and easy to understand, and prompt lots of memories and discussion between those with Alzheimers or other dementia and their family, friends and carers. Even when people with dementia can no longer hold a conversation they will enjoy looking through the book and studying the pages. Arranged in a clear and easy to understand format, the book is recommended for those with dementia by the Reading Well, Books on Prescription scheme in England.
