

Literature for Young Children (5th Edition)

For courses in Childrens Literature, Literature Methods, and Literature in Early Childhood. Designed to support both preservice and inservice teachers by helping them recognize high-quality and developmentally appropriate childrens books to share with PreK - 3 children, the major goal of this text is to show how to use childrens literature to help develop childrens language skills and their intellectual capacity, encourage healthy social and moral development, and nurture childrens creativity. Coverage encompasses discussions of both contemporary and classic literature for young children, providing teachers, parents, and child-care professionals opportunities to talk about reading while engaging children in experiences with good books. Teachers and day-care professionals will find myriad practical strategies, extensive book lists, and relevant websites valuable for PreK - 3 curriculum planning.
