

Enser's Filmed Books and Plays: A List of Books and Plays from Which Films Have Been Made 1928-2001 (Enser's Filmed Books and Plays) (Enser's Filmed Books and Plays)

Enser's Sixth Edition includes entries about films made in the English language, as well as some foreign language material. In all, this edition is based on about 8,000 main entries, nearly 2,000 more than the previous edition, opening up to the reader ever more fascinating links between print and film. The introduction addresses recent changes in the film and television industry, including the growth in independent production in the last decade and the burgeoning of made-for-cable films. As previously, the book is organized around indices for the film titles; authors; musicals; made-for-TV films, mini-series and serials; animated films; and changes of original title. Each entry indicates the title of the film; studio name and country of origin; date of release; directors name; author of book, and title if different than film title; and an indicator of whether the film was adapted from a play. A list of codes at the end of each entry allows the reader to see other facts about the film, such as whether it was made for television, is aimed at children, or was shown as a series or mini-series.
