

## Sacrificed: Surviving the Cut

What do you do when those who are entrusted with your wellbeing turn on you? What do you do when it is God's own people? *Sacrificed: Surviving the Cut* describes in detail not only the rampant abuses of God's own by those who call themselves His people but explains how the Church has come to be such an embattled environment and how to find healing when you have been left wounded by your Church experience. Christ left us these commands; love God and love one another. Everything else is to be filtered through these commands. In this book you will find healing, direction and solutions for bringing the Church back from the turmoil of division, denominationalism and lifeless tradition to being that safe haven of restoration, love and acceptance that Christ has ordained His Church to be. You will find this book eye-opening and life-changing.
